

FIRST Environmental Connection

TENANT PROFILE:

BAS Recycling, Inc.

BAS Recycling, an innovator and industry leader in tire recycling, offers custom solutions and technical support to their environmentally conscious customers.

BAS Recycling's 80,000 square-foot manufacturing facility at 14050 Day Street in Moreno Valley, CA has the production capability to fulfill all rubber demands. They can supply from their multi-million pound storage area with same day order and shipping. This recently renovated First Industrial-owned structure provides easy freeway access for BAS Recycling.

Solving the challenges involved in the production of quality, contaminate free, crumb rubber from whole tire recycling since 1989, BAS Recycling is committed to making tomorrow's technology available today.

BAS Recycling and many more of our 2,300 tenants are committed to working with the natural environment. We are delighted to support these tenants' goals in making a healthier world. To hear more about our company's endorsement of green policies, visit www.firstindustrial.com/environment.
